Ways to shop:

There are several ways to shop at Halfords, giving you more choice:

In-Store

Many products are available in-store to buy, so you can take them away with you on the same day.

Whilst in-store you can also take advantage of our We Order service on selected products.

Reserve online and collect in-store

Reserve your item online and collect it from your nearest mobility ranged store.

weorder

If you are in-store, please ask a store colleague for assistance. We Order items will need to be ordered and our store colleagues will be happy to do this for you. Your purchase will then be delivered to the store.

Please note: ordering and delivery options vary by product.

Your nearest mobility ranged store

To find your nearest Halfords mobility ranged store, visit www.halfords.ie/mobility or contact customer services on: +44 845 057 9000

A5 IRL MOBILITY AW.indd 2 26/5/10 10:02:53

info why choose Halfords?

- **Try in-store before you buy**
  Come and try out our products in our spacious store environment. You will be able to try products for comfort and test the controls.†
- **Knowledgeable mobility advisors**
  A member of our professionally trained team will be on hand to discuss your mobility needs and answer any queries or concerns you may have.
- **FREE build and safety check on wheelchairs and walking aids**
  We don't just supply you a wheelchair or walking aid in a box like some other retailers, mail order or when buying direct online. Our highly trained advisors will build and safety check it for FREE so you can leave with your wheelchair or walking aid ready to use.

webuild+ and safety check free

- **After sales service and support**
  Full nationwide support service on scooters.◖ Range of spares available for wheelchair products with an in-store fitting service on selected parts. Scooter insurance is available at an additional cost, (see page 10).
- **Lowest Price Guarantee** - We won't be beaten on price◆
- **Stores open late 7 days a week and easy on site parking**
  We are open when others are not. Most of our stores are open till late most nights, plus we are open on a Sunday.

◖Support service only available within the warranty period. ◆If you can buy the same product cheaper within 7 days and within 30 kilometres of the store, we'll match the price, even against trade outlets, excludes mail order and internet sales. †Some special order products are not available to try in-store. +Subject to purchase from Halfords. Please ask in-store for details.

lowest price **guarantee**◆

info scooters how to choose

A mobility scooter is a great way to keep your independence if you suffer from mobility issues. As you don't have to rely on a family member or carer to help, you have the freedom of being able to visit friends and family or even pop to the shops.

There are two types of mobility scooter available:

1. **Portable Mini – Boot Scooters and Compact** models available: Little Star and Little Gem 2
2. **Portable Mid – Larger Boot Scooters** models available: Pearl and Sapphire 2

Use our scooter chart below to help you decide which is best for your needs.

Our trained advisors are on hand to help you should you require any further information.

	SCOOTER COMPARISON CHART			
	PORTABLE MINI		PORTABLE MID	
	Little Star	Little Gem 2	Pearl	Sapphire 2
Where can the scooter be used?	Recommended for indoor use, e.g. in shopping centres		Recommended for outdoor use on pavements. Also good for indoors in larger areas such as shopping centres and small towns	
Can I use the scooter on steep hills?	not suitable	not suitable	Max 8° slope at max user weight of 136kg	Max 14° slope at 113kg user weight, max 10° at 150kg user weight
What is the scooter's maximum speed?	4mph	4mph	4mph	4mph
How far can I travel on a full charge?	up to 8 miles‡	up to 10 miles‡	up to 15 miles‡	up to 19 miles‡
Is the scooter transportable in the boot of a car?	✔	✔	✔	✔ Larger boots
What kind of tyres & wheels does the scooter have?	Puncture Proof	Puncture Proof	Puncture Proof	Pneumatic tyres
Does the scooter have lights?				Front and rear
What is the choice of colours?	Black	Metallic red or blue	Metallic red or blue	Metallic red or blue

Important note: Scooters are not suitable for those with impaired vision.

▲ Scooter we order policy. All scooters are purchased through Halfords customer order facility and are delivered directly from the manufacturer. We are therefore unable to accept returns. Your statutory rights are not affected. ‡Depends on model, user weight, terrain and battery condition.

lowest price **guarantee**◆

Why buy a Scooter from Halfords?

- **Knowledgeable mobility advisors**
  Our professionally trained team will be on hand to discuss your mobility needs and answer any queries you may have.
- **After sales service and support**
  We offer a nationwide support service on scooters.◖ Scooter insurance is available at an additional cost. See page 10 for further details.
- **Lowest Price Guarantee** - We won't be beaten on price◆

We set up and demonstrate your scooter for free

Once you have purchased your scooter, it will be delivered free of charge to the Halfords store where you placed your order. We will set-up your scooter ready for collection.

On collection a trained mobility advisor will:

1. Demonstrate how the scooter controls work i.e. drive, reverse etc
2. Demonstrate how to charge the scooter
3. Demonstrate how to fold down the scooter (where applicable)
4. Put the scooter in your car for you to take away

The scooter user must be present to be shown how to use and charge the scooter safely.

◆If you can buy the same product cheaper within 7 days and within 30 kilometres of the store, we'll match the price, even against trade outlets, excludes mail order and internet sales. ◖Support service only available within the warranty period.

Scooter Insurance

Halfords recommends insurance cover once you have purchased your scooter. This is available from a leading provider, Mark Bates Ltd under their 'Premier Care' brand.

This insurance has been specifically designed for those who rely upon mobility aids to enhance their quality of life and is available from a leading UK provider Mark Bates Ltd, under the Premier Care brand through their agent in the Republic of Ireland, Insurances and Financial Services Ltd, IFS House, 16 Lower Main Street, Lucan, Co. Dublin on (01) 628 1100

With many years of experience in the mobility market the policy offers a range of unique benefits and features to ensure that you can use your product, whether to get out and about more or to move about more freely in the home, with complete peace of mind.

Eligible customers can claim VAT back - please ask in-store for a VAT reclaim form

A5 IRL MOBILITY AW.indd 10 26/5/10 10:04:18

Frequently asked questions

Do I need to take out insurance?
We recommend that you insure your scooter against theft, accidental damage, public liability and lost keys using special insurance cover which is available at additional cost – see opposite. You are not legally obliged to insure your scooter.

What is the warranty period?
12 months.■

Do I need to take a driving test?
No, but we recommend that you make the most of the demonstration offered to you when you collect your scooter from store, and drive with consideration to pedestrians. The RSA rules of the road must be obeyed at all times.

How far will my scooter travel?
Range varies depending on which scooter you choose. See individual specifications for details.‡

What is the maximum user weight capacity?
Each scooter is different so check the individual scooter's specification.

Can I charge a scooter battery via my car?
No. Do not attempt this, your car uses 12V whereas your scooter uses 24V.

Can I fit two car batteries to my scooter because they are cheaper?
No. Although they may look the same, a car battery and a scooter battery are designed and built completely differently.

How much does it cost to charge a scooter up every night?
This depends on how much you pay per unit for your electricity. As a guide, your battery charger uses approximately 1.2 units of electricity per day.

When should I charge a scooter up and for how long?
Charge your scooter every day whether you use it or not. It is quite safe to leave your batteries constantly on charge for up to five days. Charge periods should last for at least 8-10 hours for normal use and 10-15 hours for heavy use. Please refer to the owners manual for charging information.

How do I maintain my scooter?
Scooters require very little maintenance:

1. Keep the battery charged, do not run flat

2. Keep the scooter clean

3. Store in a dry place away from rain, wind and cold areas

4. Check the tyre pressure weekly in accordance with the user manual***

5. Do not overload your scooter

Spares and replacement parts can be ordered from Halfords should you ever need them.

+Subject to purchase from Halfords. Please ask in-store for details. ***See owners manual for correct settings. ‡Range will vary with model, user weight, terrain and battery condition. ■Scooter manufacturer standard warranty is 12 months, excludes wear and tear and consumables. Batteries covered by 3 month warranty.

A5 IRL MOBILITY AW.indd 11 26/5/10 10:04:25

wheelchairs

There are many considerations when buying a wheelchair and selecting the right one for you or someone you care for. We can help you find the right wheelchair for you.

Which wheelchair should I buy?

Consider how the wheelchair will be used.

Push Wheelchair

1. Push Wheelchairs

Always have smaller rear wheels (castors) and must always be pushed by a friend, relative or carer.

2. Self-propel Wheelchairs

Have large, usually 24", rear wheels with hand rails that enable the user to propel the chair unassisted, thereby retaining their independence.

Self-propel Wheelchair

Self-propel wheelchairs also have push handles, so can be pushed by an attendant or carer, if preferred. They offer greater comfort to the user because the larger rear wheels give a smoother ride.

When you have decided how you will use your wheelchair, use the wheelchair comparison chart on the opposite page to compare the models in our range.

Our highly trained advisors will build and safety check your wheelchair for FREE so you can leave with your wheelchair in full working order.

webuild+ and safety check **free**

+Subject to purchase from Halfords. Please ask in-store for details.

walking aids

Sometimes you just need a little help. Our range of walking aids can increase stability and help prevent falls inside or outside the home. As well as walking sticks and folding seats, we offer the following walking aids:

1. Three Wheeled Walker (also called a tri-walker)

For use in the home, but can also be used outside to walk short distances. Includes bag, basket and tray.

2. Four Wheeled Walker (also called a rollator)

For use in the home or outside. The rolling walker incorporates handy features to make a trip to the local shop easier, plus a seat giving the option to rest when needed.

Folding Walking Stick

- Snaps open and easily folds away
- Adjustable height 74-84cm (29-33")

The correct height for your walking stick is the same distance between the crease in your wrist and the floor
